

**You can't read Hindi-Sanskrit languages because, your computer/mobiles is not using Chrome or any proper Browser that supports HTMLs using TTFs fonts.**

HOW TO INSTALL FONTS:

1). Click>>> [www.gita-society.com/2fonts.zip](http://www.gita-society.com/2fonts.zip)

True type fonts (were used before Unicode fonts came): GEETA, GITA1 will be on your **Download** Folder in a zip folder.

2). Open Control Panel / appearance&personalization / **Fonts**  
DOUBLE CLICK to open **Fonts** folder. Drag-Drop both fonts from **Download** Folder to **Fonts** folder and close it. Fonts are now installed on your computer to read ALL our work. CHECK IT.
